Professional Profile

Senior Technical Office Architect who advanced through four levels at Sigma Contractors in under three years — fast-tracked to Mid-Level within the first three months in recognition of outstanding performance. Experienced across interior fit-out, retail, and residential projects, with strengths in technical coordination, quantity surveying, cost control, contract administration, and payment certification. Now leading and mentoring a technical-office team while serving as the coordination point between clients, consultants, designers, and subcontractors across Egypt and Saudi Arabia.

Sigma Contractors

Oct 2023 – Present · Interior Fit-out, Retail & Residential — Egypt & Saudi Arabia

Career Progression at Sigma

- 2026 – Present · **Technical Office Team Lead** (in training) — leading the technical office team
- 2025 – 2026 · **Senior Technical Office Architect**
- 2024 – 2025 · **Mid-Level Technical Office Architect** — *promoted within the first 3 months for exceptional performance*
- Oct 2023 · **Technical Office Architect** — joined Sigma Contractors

Core Responsibilities

- Leading the technical office function for interior fit-out and retail projects across Egypt and Saudi Arabia.
- Supervising and mentoring junior and mid-level technical office engineers — reviewing and approving their shop drawings, BOQs, and technical submissions, and developing them toward independent delivery.
- Coordinating team workload across concurrent projects, delegating tasks, and owning quality and deadlines.
- Overseeing the production, review, and approval of shop drawings, coordination drawings, and technical submissions.
- Managing quantity surveying activities, cost estimation, and commercial evaluations.
- Preparing, reviewing, and certifying interim and final payment certificates for subcontractors and clients.
- Administering subcontractor agreements, contracts, and scope alignment.
- Managing material submittals, samples, mock-ups, and final approvals.
- Producing detailed technical and progress reports.
- Serving as the primary liaison with clients, client representatives, consultants, designers, and regulatory authorities including compounds, malls, and the Grand Egyptian Museum.

Key Projects

- Property Finder – Head Office, District 5 | Corporate Office | 1,500 m² | Egypt (Consultant: Mohamed Badr)
